VUDAFIERI-SAVERINO PARTNERS

"Based in Milan and Shanghai, the Studio, founded and run by architects Tiziano Vudafieri and Claudio Saverino, in its twenty-year career has developed projects in almost every country and continent, always adopting an attentive approach to face the major issues of the contemporary culture, city, landscape and society."

Vudafieri Saverino Partners is a creative atelier based in Milan and Shanghai, specialized in architecture and interior design projects for retail, hotel, and restaurant spaces. The firm is run by partners Claudio Saverino and Tiziano Vudafieri and has a workforce of forty including designers, administrative and logistical staff. The creative atelier created a unique mid-century modern interior design project for one of the trendiest spots in Milan.

Based in Milan and Shanghai, the Studio, founded and run by architects Tiziano Vudafieri and Claudio Saverino, in its twenty-year career has developed projects in almost every country and continent, always adopting an attentive approach to face the major issues of the contemporary culture, city, landscape, and society. One of their recent restaurant designs was the Spica Restaurant interiors in Milan. This trendy space tells the journey around the world of chefs Ritu Dalmia and Viviana Varese with a concept that combines suggestions from the Asian world and references to 20th-century Milanese design, in a vibrant, multicultural and colorful atmosphere. Other amazing and exquisite projects designed by this amazing studio include the Peck CityLife restaurant in Milan, the acclaimed restaurant Il Luogo di Aimo e Nadia in Milan or the incredible Delvaux stores in Rome and Milan. In Asia, Vudafieri Saverino Partners recently presented some amazing projects, namely the amazing private residence Villa Hunan Lu in Shanghai or the amazing kids playground Scuole Gymboree in Shenzhen and Suzhou!

Whether it is a residential, commercial or even industrial, every design project created by Vudafieri Saverino Partners expresses the close relationship between the values of the client and those of the context, creating a meticulous composition of form and function, sign and detail. They combine two distinct worlds that dialogue in harmony in the space and are reflected respectively in the architecture of the interior and in that of the furnishings. The result is a unique interior design method that combines the identity of places with a specific "storytelling strategy".
